JOIN A COMMITTEE, MAKE A DIFFERENCE

Our committees play a vital role in enhancing our member experience and supporting our Association's mission. Bring your valuable skill set to the table and help make a difference. If you're interested in joining a committee, please mark your committee(s) of choice and provide your contact information below. Completed forms can be submitted to SCCA staff or emailed to info@sccaweb.org.

NAME _____ EMAIL _____

COMPANY _____

Construction University Committee

Our Construction University Committee oversees our Association's Construction University Program which supports the educational and training goals of our members' companies. This committee encourages our members that are planning or have recently provided training for their employees to apply for funding support. They also provide valuable input as to specific training classes provided to our members monthly.

Labor Committee

We are the leader in labor relations within the construction industry in southern California. Our practice of working closely with other construction associations has resulted in our Association's successful long-term relationships with the industry trades. We provide information to our members on a wide range of issues relating to labor. Our Association has Master Labor Agreements with the Operating Engineers, Laborers, Cement Masons, Carpenters, Iron Workers, and the Construction Teamsters.

Legal Committee

Our Legal Committee serves as a resource for our members by providing legal guidance to our Association's Labor staff when needed and provides support to our Association's State and Local Legislative Committee. This committee also provides legal webinars to educate our members regarding relevant legal issues facing the construction industry today.

Marketing Outreach Committee

This committee guides and maintains the SCCA brand while raising understanding and awareness of the Association's value to members and the industry. It facilitates the creation and delivery of digital content, and promotes SCCA's unique programs and services to drive and support our mission.

Membership Committee

This committee's role is to identify opportunities to increase membership as well as strengthen our Association's relationships with our current members. This committee provides mentorship and encouragement through networking and relationship building events.

Pipeline & Underground Committee

The Pipeline and Underground Committee (P.U.G.) protects, educates, and supports excavation workers, with a focus on Dig Alert, damage prevention, and safe digging in California. Collaborating with the Underground Safety Board and legislative committees, P.U.G. keeps members informed and addresses regulations impacting field professionals.

Pipeline & Underground Committee

The Pipeline and Underground Committee (P.U.G.) protects, educates, and supports excavation workers, with a focus on Dig Alert, damage prevention, and safe digging in California. Collaborating with the Underground Safety Board and legislative committees, P.U.G. keeps members informed and addresses regulations impacting field professionals.

Political Action Committee

Our Political Action Committee (PAC) operates to build our Association's relationships with candidates at the state and local levels, serves as a tool to strengthen our Association's governmental affairs activities, and allows SCCA's voice to be heard. Contributions that are given to the local and state candidates are approved by our PAC Chair and members. All contributions are recorded pursuant to the California Elections Code and the California Political Reform Act. Our PAC retains a Certified Public Accountant who specializes in campaign contributions to ensure compliance with the state and local laws.

Programs Committee

Our Programs Committee plans and oversees the formal and informal events hosted by SCCA. Some duties performed by this committee are setting the annual event calendar, selecting venues, building budgets for each event, and works closely with SCCA staff to create memorable events that assist our members in building relationships.

Safety Committee

Our Safety Committee meets regularly to share updates regarding safety information including but not limited to new and changed legal and regulatory requirements. Our members are encouraged by the Safety Committee to attend its meetings which serve as an open forum to share and discuss best practices in the construction industry. The committee also recognizes best safety practices annually by hosting an awards dinner for all members who demonstrate zero to minimal incidents throughout the year.

Scholarship Committee

The Scholarship Committee oversees our Association's Scholarship Fund which awards financial scholarships to students who are pursuing construction or engineering-oriented degrees or certification at accredited schools. Our Scholarship Committee encourages our recipients to seek employment with one of our Association's members upon graduation.

State & Local Legislative Committee

Our State and Local Legislative Committee supports our Association through monitoring several hundred bills at the state level each year that could potentially affect our members and the construction industry. The Committee also educates our members regarding these issues and takes an active stance on proposed bills to either help pass or defeat legislation at the state level. This Committee has two Subcommittees which are the Subcommittee on Local Government Affairs (SOLGA) and the Subcommittee on Transportation Policy (STP). These Subcommittees identify opportunities to create strategic partnerships with counties, cities, and regulatory agencies. These partnerships provide invaluable forums for our members as well as educate policymakers on how their decisions impact our members and our industry.

Student Chapter Committee

This committee's role is to identify opportunities to increase membership as well as strengthen our Association's relationships with our current members. This committee provides mentorship and encouragement through networking and relationship building events.
